About the course Go Application Development

Go (also called Golang or Go language) is an open source programming language used for general purpose. Go was developed by Google engineers to create dependable and efficient software. Most similarly modeled after C, Go is statically typed and explicit.

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Troubleshooting Go Application Development The Course Overview | packtpub com**

Lesson 2 : **Troubleshooting Go Application Development Deadlocks | packtpub com**

Lesson 3 :
Troubleshooting Go Application Development No Install Location Outside GOPATH | packtpub com

Lesson 4 :
Troubleshooting Go Application Development Zero Value for Non Existent Map Keys | packtpub com

Lesson 5 : **Troubleshooting Go Application Development Don t Panic | packtpub com**

Lesson 6 : **Troubleshooting Go Application Development Index Errors | packtpub com**

Lesson 7 :
Troubleshooting Go Application Development Concrete Type Versus Dynamic Type | packtpub com

Lesson 8 :
Troubleshooting Go Application Development Mixing Constants and Types | packtpub com
