Mindluster Platform

About the course advanced Rapid Gulp

Gulp is a cross-platform, streaming task runner that lets developers automate many development tasks. At a high level, gulp reads files as streams and pipes the streams to different tasks. These tasks are code-based and use plugins. The tasks modify the files, building source files into production files.

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **Rapid Gulp Tutorial An Overview of Streams | packtpub com**

Lesson 2 : **Rapid Gulp Tutorial Optimizing CSS JavaScript and Images | packtpub com**
