Mindluster Platform

About the course Extending Machine Learning Algorithms

Deep learning is a subset of a Machine Learning algorithm that uses multiple layers of neural networks to perform in processing data and computations on a large amount of data. Deep learning algorithm works based on the function and working of the human brain .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Extending Machine Learning Algorithms â€“ The Course Overview | packtpub com**

Lesson 2 : **Extending Machine Learning Algorithms â€“ AdaBoost Classifier | packtpub com**

Lesson 3 : **Extending Machine Learning Algorithms â€“ K Nearest Neighbours | packtpub com**

Lesson 4 :
Extending Machine Learning Algorithms â€“ Support Vector Machines Working Principles | packtpub com

Lesson 5 : **Extending Machine Learning Algorithms â€“ Content Based Filtering | packtpub com**
