Mindluster Platform

About the course High Performance Applications with C

This is a self-paced course that continues in the development of C++ programming skills. Among the topics covered is the development of more advanced command-line programs that utilize functions, arrays, and strings to solve problems. Students learn to program in C++ through the lectures and the labs.

Programming Category's Courses

Course Lesson(7)

Lesson 1 : **High Performance Applications with C The Course Overview | packtpub com**

Lesson 2 : **High Performance Applications with C Mutex| packtpub com**

Lesson 3 :
High Performance Applications with C Writing a Simple Hello World Program| packtpub com

Lesson 4 : **High Performance Applications with C Google Test Framework | packtpub com**

Lesson 5 :
High Performance Applications with C Developing an RPN Calculator Application| packtpub com

Lesson 6 :
High Performance Applications with C Installing cucumber cpp in Ubuntu| packtpub com

Lesson 7 :
High Performance Applications with C Debugging Our Application Using GDB| packtpub com
