Mindluster Platform

About the course The Deep Learning Challenge

One of the main challenges of Deep Learning derived from this is being able to deliver great performances with a lot less training data. As we will see later, recent advances like transfer learning or semi-supervised learning are already taking steps in this direction, but still it is not enough .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **The Deep Learning Challenge Course Overview | packtpub com**

Lesson 2 : **The Deep Learning Challenge Import and Load a Pre Trained VGG16 | packtpub com**

Lesson 3 : **The Deep Learning Challenge Create and Compile a Convolutional | packtpub com**

Lesson 4 : **The Deep Learning Challenge Build a Generative Adversarial | packtpub com**

Lesson 5 :
The Deep Learning Challenge Choosing the Deep Learning Algorithm and | packtpub com
