About the course Third Person Controller Unity 3D game

Third Person Controller Unity 3D course, in this course we'll delve into the mechanics of implementing a versatile and responsive Third Person Controller using Unity's powerful tools and scripting capabilities. The Third Person Controller in Unity 3D is a fundamental component for many games, providing players with direct control over their character's movements and actions from a third-person perspective. Throughout this course, we'll explore the various components and scripts needed to create a dynamic and engaging player control experience. Starting with the basics, we'll cover topics such as character movement, including walking, running, jumping, and crouching. You'll learn how to implement camera controls to ensure optimal viewing angles and perspectives for the player. Additionally, we'll dive into advanced topics such as implementing combat mechanics, interacting with objects in the environment, and integrating animations to bring your character to life.

Programming Category's Courses

Course Lesson(9)

Lesson 1 :
Player Controller Unity 3d Basic Player Movement Tutorial How to Become a Game Developer Course

Lesson 2 :
Player Controller Unity 3d Player Face Direction Tutorial How to Become a Game Developer Course

Lesson 3 :
Unity Move Player in Direction of Camera Third Person Controller Unity Tutorials Game Devlog

Lesson 4 :
Unity Player Rotation Unity Camera Follow Player Rotation Speed Tutorial Game Devlog Unity 2023

Lesson 5 :
Third Person Controller Unity Tutorials Unity Character Locomotion Animations Game Devlog 2023

Lesson 6 :
Unity Character Animation Controller Unity Character Movement with Animation Game Devlog Unity

Lesson 7 :
Player Collision Unity 3D Third Person Controller Tutorial Become a Game Developer Game Devlog

Lesson 8 :
Check if Player on Surface Third Person Controller Unity 3D Game Development Devlog Tutorials 2023

Lesson 9 :
Gravity Character Controller Unity Tutorials Character Gravity Falls Unity Game Devlog 2023
