Mindluster Platform

About the course Svelte js 3 and Sapper Projects

Sapper is an app framework (or 'metaframework') built on top of Svelte (which is a component framework). Its job is to make it easy to build Svelte apps with all the modern best practices like server-side rendering (SSR) and code-splitting, and to provide a project structure that makes development productive and fun .

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Svelte js 3 and Sapper Projects The Course Overview | packtpub com**

Lesson 2 :
Svelte js 3 and Sapper Projects Adding Reactivity with Dynamic Attributes | packtpub com

Lesson 3 : **Svelte js 3 and Sapper Projects Dispatching Events | packtpub com**
