Mindluster Platform

About the course Motion blocks in scratch 3 0

Motion blocks in scratch 3.0 course, in this course we delve into the fundamental tools and techniques of motion programming within the Scratch 3.0 platform. Starting with an introduction to Motion Blocks, learners will explore how to animate sprites, create dynamic movements, and design interactive experiences. From basic motion commands to advanced strategies, participants will master concepts like motion loops, physics simulation, and integrating sound with motion effects. Through hands-on exercises and practical projects, this course equips students with the skills to bring their Scratch creations to life with captivating motion sequences. Whether you're a novice or an experienced Scratch user, this course offers valuable insights and strategies for unleashing the full potential of motion blocks in Scratch 3.0.

Programming Category's Courses

Course Lesson(9)

Lesson 1 : **What is Scratch Programming v3 0**

Lesson 2 : **Understanding Scratch 3 0 screen**

Lesson 3 : **Scratch 3 0 Writing a Script**

Lesson 4 : **Scratch 3 0 Explore Motion Blocks**

Lesson 5 : **Scratch 3 0 Pen Blocks**

Lesson 6 : **Scratch Explore Sound Blocks**

Lesson 7 : **Scratch 6 Looks and Event blocks**

Lesson 8 : **Scratch 7 Look and Event Part 2**

Lesson 9 : **Clones and Scores in Scratch**
