Mindluster Platform

About the course Google classroom basics for beginners

Google classroom basics course, in this course we will learn about the Google Classroom basics, a powerful platform designed to simplify and enhance the educational experience for both teachers and students. You'll start by understanding how to set up your Google Classroom, including creating classes, inviting students, and organizing class materials. Weâ€™ll guide you through the process of creating and assigning homework, quizzes, and projects, as well as how to efficiently grade and provide feedback to your students. The course will also cover the use of Google Drive integration, enabling seamless sharing and collaboration on documents, presentations, and spreadsheets. Additionally, youâ€™ll learn how to communicate effectively with your students through announcements, class discussions, and private messages. By the end of this course, youâ€™ll be equipped with the essential skills to manage your classroom efficiently, foster student engagement, and make the most out of Google Classroom's features for a streamlined and interactive teaching experience.
