About the course YouTube video questions in google classroom

YouTube video questions in google classroom course, in this course we will explore how to enhance student engagement and learning by integrating YouTube video questions in Google Classroom. You will learn how to insert interactive questions directly into YouTube videos shared with students in Google Classroom. This technique helps in assessing student understanding while they watch the videos, making learning more dynamic and engaging. The course will guide you through the steps of selecting the right videos, embedding questions at specific points, and using these interactive features to encourage active participation. Additionally, you will discover how to track student responses, provide immediate feedback, and analyze their progress through video-based assessments. By the end of the course, youâ€™ll have mastered the ability to create an interactive learning environment where students not only watch instructional videos but also engage with the content in a meaningful way. This course is perfect for teachers looking to innovate their teaching methods and make video-based learning in Google Classroom more interactive and effective.
