Mindluster Platform

About the course Create a website with wordPress for beginners

Create a website with wordPress course, in this course is designed for anyone looking to build a stunning and functional website without prior technical skills. In this course, youâ€™ll learn how to set up WordPress, select and customize themes, install and manage essential plugins, and create engaging pages with text, images, and videos. Weâ€™ll guide you through building a responsive, mobile-friendly design, adding features like contact forms, blogs, or even e-commerce stores. With step-by-step tutorials, you'll master website navigation, SEO basics, and content management to create a professional online presence. By the end, youâ€™ll have the knowledge and confidence to design and launch your own WordPress website, whether for a personal project, blog, or business. Perfect for beginners.
