Mindluster Platform

About the course Python programming for interview preparation

Python programming for interview , in this course is designed to prepare you for Python programming interviews by focusing on the essential concepts and skills needed to succeed. You will learn key Python topics such as data types, control structures, functions, and object-oriented programming (OOP). Additionally, the course covers more advanced concepts, including exception handling, file operations, and Python libraries like NumPy and pandas, which are often used in real-world scenarios. The course includes practical exercises, coding challenges, and common interview questions to help you build confidence and problem-solving skills. By the end of this course, you will have a strong foundation in Python programming and be well-prepared to tackle technical interviews, solve coding problems efficiently, and demonstrate your Python skills in interviews for top companies.

Programming Category's Courses

Course Lesson(12)

Lesson 1 :
2 Python Program for Interview Preparation Sum of Odd numbers Python Programming for Everyone

Lesson 2 :
3 Python Program for Interview Preparation Even numbers in Reverse order Python Programming

Lesson 3 :
4 Python Program for Interview Preparation Find Min and Max from Array Python Programming

Lesson 4 :
5 Python Program for Interview Preparation Find string is palindrome or not Python Programming

Lesson 5 :
6 Python Program for Interview Preparation Find HCF of two numbers Python Programming

Lesson 6 :
7 Python Program for Interview Preparation Find Vowels in given string Python Programming

Lesson 7 :
8 Python Program for Interview Preparation Encode Decode a String Python Programming

Lesson 8 :
9 Python Program for Interview Preparation Given Password is valid or not Python Programming

Lesson 9 :
10 Python Program for Interview Preparation Iterative vs Recursive Python Programming

Lesson 10 :
11 Python Program for Interview Preparation Sum of Sums of Natural numbers Python Programming

Lesson 11 :
12 Python Program for Interview Preparation Find the remainder without using operator

Lesson 12 : **13 Python Program for Interview Preparation Find int values from a file**
