About the course Creating a hangman game using VBA

Creating a hangman game using VBA, in this course youâ€™ll learn how to design and code a fun, interactive Hangman game using VBA (Visual Basic for Applications) within Microsoft Excel. Weâ€™ll guide you through the basics of VBA, including creating a user-friendly interface, handling input, and implementing game logic. Discover how to use loops, conditional statements, and arrays to develop the core mechanics of the game. Youâ€™ll also learn to enhance the game with visual elements like dynamic word displays, error counters, and progressive hangman drawings. By the end of the course, youâ€™ll have a fully functional Hangman game and a strong understanding of VBA programming fundamentals, making it ideal for beginners and those looking to expand their coding skills in a creative and practical way.

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **How to Make a Hangman Game with VBA Part 1 The Finished Game**

Lesson 2 : **How to Make a Hangman Game with VBA Part 2 â€“ Building the User Interface**

Lesson 3 : **How to Make a Hangman Game with VBA Part 3 â€“ Selecting a Word to Guess**

Lesson 4 : **How to Make a Hangman Game with VBA Part 4 â€“ Selecting a Random Word**

Lesson 5 : **How to Make a Hangman Game with VBA Part 5 â€“ Checking for Correct Guesses**

Lesson 6 : **How to Make a Hangman Game with VBA Part 6 â€“ Keeping Score**
