About the course CoinPaprika python API

Course Presenter : Financial Programming with Ritvik CFA

CoinPaprika python API, in this course Start the CoinPaprika Python API course and unlock the power of real-time and historical cryptocurrency data using Python. In this course, youâ€™ll learn how to access market data, prices, volume, supply, exchange info, and more using CoinPaprikaâ€™s powerful and simple API. Whether you're building a crypto price tracker, analyzing market trends, or developing trading tools, this course walks you step-by-step through installing the CoinPaprika SDK, retrieving data on thousands of coins, and creating Python-based crypto dashboards. Youâ€™ll build real-world projects using Bitcoin and altcoin data, understand how to filter and use metadata, and visualize crypto movements. No prior experience with APIs is neededâ€”just basic Python skills. By the end of the course, youâ€™ll be confident in using CoinPaprika to power your crypto analysis and tools. Letâ€™s start your journey into Python crypto development today. Financial Programming with Ritvik CFA
