About the course Impact effort matrix

Course Presenter : RISR Careers

Impact effort matrix, in this course we will learn how to effectively use the Impact Effort Matrix to evaluate and prioritize tasks or projects based on their potential impact and the effort required. You'll discover how this simple yet powerful tool can help you focus on what matters most, identify quick wins, and avoid time-wasting activities. The course explores each quadrant of the matrix, guiding you on how to categorize tasks, make data-driven decisions, and allocate resources wisely. Youâ€™ll also learn how to apply the matrix in team settings for collaborative planning, improve productivity, and manage workloads with clarity. Through real-life examples and hands-on exercises, youâ€™ll build the skills needed to make smarter choices and drive better outcomes in both personal and professional contexts. Whether youâ€™re a project manager, business leader, or individual contributor, this course will help you work more strategically and efficiently.
