About the course PMP exam

Course Presenter : David McLachlan

PMP exam , in this course is designed to fully prepare professionals for the Project Management Professional (PMP) certification by PMI. It covers all domains of the PMBOK Guide, including project initiation, planning, execution, monitoring, and closure. Learners will master key concepts such as scope, schedule, cost, quality, communication, and risk management. The course provides practical examples, real project scenarios, and interactive exercises that help reinforce understanding and application of project management principles. It also includes strategies for answering situational exam questions and managing exam time efficiently. By the end, participants gain the confidence, knowledge, and practical skills required to pass the PMP exam and lead successful projects across industries with a globally recognized certification. David McLachlan
