Mindluster Platform

About the course Netlify and Serverless

With Netlify Functions, your serverless functions are version-controlled, built, and deployed along with the rest of your Netlify site, and we will automatically handle service discovery through our built-in API gateway. This eliminates overhead and brings the power of Deploy Previews and rollbacks to your functions .

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Netlify Serverless 1 Netlify Fundamentals**
