Mindluster Platform

About the course AWS and Python

An efficient AWS architect should be able to write code in Java, Python, C# or any other of the programming languages which have an official AWS SDK. Understanding programming in general is important for creating viable, logical solutions that would work as intended .

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **Getting Started with AWS CLI**

Lesson 2 : **Introduction to Boto3 for Python Upload File to AWS S3**
