About the course Enlarged Prostate Symptoms and Signs

Enlarged Prostate Symptoms course, in this course Enlarged Prostate Symptoms. In this course, we will learn about the common symptoms associated with an enlarged prostate, including urinary problems, such as frequent urination, difficulty starting or maintaining urination, weak urine stream, and incomplete bladder emptying. Additionally, we'll explore other signs like urinary tract infections, blood in the urine, and erectile dysfunction. Understanding these symptoms is crucial for early detection and effective management of benign prostatic hyperplasia (BPH).
