# About the course Practical Flask Web Development

Flask is a powerful web framework that helps you build great projects using your favorite tools. Flask takes the flexible Python programming language and provides a simple template for web development. Once imported into Python, Flask can be used to save time building web applications.

**Programming Category's Courses**

# Course Lesson(35)

Lesson 1 : **Flask Tutorial Web Development with Python 1 Intro**

Lesson 2 : **Flask Tutorial Web Development with Python 2 Basic site setup**

Lesson 3 : **Flask Tutorial Web Development with Python 3 Bootstrap and Jinja Templates**

Lesson 4 : **Flask Tutorial Web Development with Python 4 Starting the Homepage**

Lesson 5 : **Flask Tutorial Web Development with Python 5 Home page improvements**

Lesson 6 : **Flask Tutorial Web Development with Python 6 Finishing Homepage**

Lesson 7 : **Flask Tutorial Web Development with Python 7 Dynamic Dashboard**

Lesson 8 : **Flask Tutorial Web Development with Python 8 Content Management**

Lesson 9 : **Flask Tutorial Web Development with Python 9 Error Handling**

Lesson 10 : **Flask Tutorial Web Development with Python 10 Message Flashing**

Lesson 11 : **Flask Tutorial Web Development with Python 11 User System**

Lesson 12 : **Flask Tutorial Web Development with Python 12 GET POST**

Lesson 13 : **Flask Tutorial Web Development with Python 13 MySQL database**

Lesson 14 : **Flask Tutorial Web Development with Python 14 Connecting to database**

Lesson 15 : **Flask Tutorial Web Development with Python 15 User Registration**

Lesson 16 : **Flask Tutorial Web Development with Python 16 User Registration cont d**

Lesson 17 : **Flask Tutorial Web Development with Python 17 User Registration finished**

Lesson 18 : **Flask Tutorial Web Development with Python 18 Password Hashing with Passlib**

Lesson 19 : **Flask Tutorial Web Development with Python 19 user login system**

Lesson 20 : **Flask Tutorial Web Development with Python 20 Login Required Decorator Wrapper**

Lesson 21 : **Flask Tutorial Web Development with Python 21 Dynamic user Content**

Lesson 22 : **Flask Tutorial Web Development with Python 22 Content Management System**

Lesson 23 : **Flask Tutorial Web Development with Python 23 More CMS**

Lesson 24 : **Flask Tutorial Web Development with Python 24 Crontab Cron jobs**

Lesson 25 : **Flask Tutorial Web Development with Python 25 Conclusion**

Lesson 26 : **Includes Flask Web Development with Python 26**

Lesson 27 : **Jinja Templating Cont d Flask Web Development with Python 27**

Lesson 28 : **URL Converters Flask Web Development with Python 28**

Lesson 29 : **Flask Mail Flask Web Development with Python 29**

Lesson 30 : **Return Files with send file Flask Web Development with Python 30**

Lesson 31 : **Protected directories and Files Flask Web Development with Python 31**

Lesson 32 : **jQuery with Flask Flask Web Development with Python 32**

Lesson 33 : **Pygal SVG embedded Graphs Flask Web Development with Python 33**

Lesson 34 : **Integrating Paypal with Flask Flask Web Development with Python 34**

Lesson 35 : **SSL for HTTPS with Apache server Flask web development with Python 35**
