About the course Chaperone Mediated Autophagy Regulation

Chaperone Mediated Autophagy course, In this course we will delve into the intricacies of CMA, exploring its molecular mechanisms, regulatory pathways, and clinical relevance. Through lectures and discussions, students will gain insights into how chaperone proteins facilitate the degradation of damaged or aggregated proteins, contributing to overall cell health and disease prevention.

Medical Category's Courses

Course Lesson(5)

Lesson 1 : **Autophagy Macroautophagy Importance in Health**

Lesson 2 : **Chaperone Mediated Autophagy CMA Selection Mechanism and Regulation**

Lesson 3 : **Macroautophagy Regulation During Feeding Fasting and Starvation**

Lesson 4 : **Macroautophagy Transcriptional Regulation Lesson 1**

Lesson 5 : **Macroautophagy Transcriptional Regulation Lesson 2**
