Mindluster Platform

About the course Native WordPress Gutenberg

Gutenberg is the code name for the new block based editor introduced in WordPress 5. It replaces the classic WordPress editor which is built on TinyMCE. It is a significant change in how content is created. With Gutenberg, you can add multiple media types and arrange the layout within the editor using blocks .

Programming Category's Courses

Course Lesson(2)

Lesson 1 : **Native WordPress Gutenberg Blocks Tooling Setup of first block**
