About the course Bronchiolitis Diagnosis

Bronchiolitis course, in this course we will learn about Bronchiolitis, a common lower respiratory tract infection, primarily affecting infants and young children. We'll delve into its etiology, clinical features, and diagnostic criteria, exploring various causative viruses such as respiratory syncytial virus (RSV). Additionally, we'll discuss management strategies including supportive care, oxygen therapy, and potential pharmacological interventions. Understanding the pathophysiology and evidence-based treatments will be emphasized, along with preventive measures and emerging research in the field of Bronchiolitis management.

Medical Category's Courses

Course Lesson(6)

Lesson 1 : **Understanding Pleural Effusions**

Lesson 2 : **Understanding Sarcoidosis A Visual Guide for Students**

Lesson 3 : **Understanding Bronchiolitis**

Lesson 4 : **Pneumothorax**

Lesson 5 : **Obstructive Sleep Apnoea**

Lesson 6 : **Understanding Arterial Blood Gases**
