About the course Intussusception Diagnosis

Intussusception course, in this course we will learn about Intussusception, a medical condition where a part of the intestine folds into another section, causing obstruction. Exploring its etiology, clinical manifestations, and diagnostic methods such as imaging studies, we'll delve into treatment modalities including non-surgical reduction techniques and surgical interventions. Additionally, we'll discuss complications, prognosis, and preventive measures to enhance understanding and management of Intussusception.

Medical Category's Courses

Course Lesson(7)

Lesson 1 : **Henoch Schonlein Purpura Visual Explanation for Students**
