# About the course Hepatitis B Serology Results

Hepatitis B Serology course, in this course we will learn about Hepatitis B Serology, which involves the study of antibodies and antigens associated with Hepatitis B virus (HBV) infection. Exploring serological markers such as HBsAg, anti-HBs, HBeAg, anti-HBe, and anti-HBc, we'll delve into their interpretation in diagnosing acute and chronic HBV infection, monitoring disease progression, and assessing immunity status. Additionally, we'll discuss serological patterns in vaccinated individuals and special populations like pregnant women. Understanding Hepatitis B Serology is crucial for healthcare professionals involved in screening, diagnosis, and management of HBV infection.

**Medical Category's Courses**

## Course Lesson(5)

Lesson 1 : **Understanding Hepatitis B Serology Results**

Lesson 2 : **Understanding Cellulitis Skin and Soft Tissue Infections**

Lesson 3 : **Understanding Pyelonephritis Kidney Infections**

Lesson 4 : **Understanding Urinary Tract Infections**

Lesson 5 : **Understanding Clostridium Difficile Infection C Diff**

## Related courses

**Infection Control**

**Male Reproductive**

**Anatomy**

**Pharynx**

**Endocrine**

**General Embryology**
