About the course Neuroleptic Malignant Syndrome Diagnosis

Neuroleptic Malignant Syndrome course, in this course we'll explore Neuroleptic Malignant Syndrome (NMS), a rare but potentially life-threatening adverse reaction to antipsychotic medications. We'll delve into its clinical features, diagnostic criteria, pathophysiology, and management strategies. Through case studies and current research, participants will gain insights into recognizing, assessing, and effectively treating NMS, thereby improving patient outcomes and safety in clinical practice.
