Mindluster Platform

About the course Machine Learning and Data Science

Data science is the field that studies data and how to extract meaning from it while machine learning focuses on tools and techniques for building models that can learn by themselves by using data .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Machine Learning Term Demystification What is a Model**

Lesson 2 : **Machine Learning Term Demystification Model Parameters vs Hyperparameters**

Lesson 3 : **Machine Learning Term Demystification Generative vs Discriminative Algorithms**

Lesson 4 : **Machine Learning Term Demystification Overfitting and Generalization**

Lesson 5 : **Easy Way to Understand Support Vector Machines**
