Mindluster Platform

About the course Applied Deep learning

Deep learning applications are used in industries from automated driving to medical devices. Automated Driving: Automotive researchers are using deep learning to automatically detect objects such as stop signs and traffic lights. In addition, deep learning is used to detect pedestrians, which helps decrease accidents.

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Applied Deep Learning Tutorial For Beginners| Theory Application Part 1 3 | Eduonix**

Lesson 2 : **Applied Deep Learning Tutorial For Beginners| Theory Application Part 2 3 | Eduonix**

Lesson 3 : **Applied Deep Learning Tutorial For Beginners| Classifications Models Part 3 3 | Eduonix**
