Mindluster Platform

About the course Box2D Series

Box2D contains specialized algorithms to deal with tunneling. First, the collision algorithms can interpolate the motion of two bodies to find the first time of impact (TOI). Second, there is a sub-stepping solver that moves bodies to their first time of impact and then resolves the collision.

Programming Category's Courses

Course Lesson(4)

Lesson 1 : **Box2D SETUP Visual Studio on Windows**

Lesson 2 : **Box2D SETUP Xcode on Mac OS X**

Lesson 3 : **Box2D Debug Draw Renderer Using Visual Studio on Windows**

Lesson 4 : **Box2D Debug Draw Renderer Using Xcode on Mac OS X**
