About the course Psoriasis Symptoms and Treatment

Psoriasis Symptoms course, in this course we will explore the diverse array of symptoms associated with psoriasis, a chronic skin condition. Participants will learn about the characteristic features of psoriasis, including red, scaly patches of skin, itching, and inflammation. Through detailed lectures and case studies, learners will gain insights into the different types of psoriasis, such as plaque psoriasis, guttate psoriasis, and pustular psoriasis, as well as associated symptoms like joint pain (psoriatic arthritis). Additionally, the course will cover diagnostic approaches and management strategies to effectively address psoriasis symptoms and improve patient outcomes.

Medical Category's Courses

Course Lesson(6)
