# About the course Air Pollution effect on Diabetes Risk

Air Pollution effect on Diabetes course, in this course we will learn about the impact of air pollution on diabetes. Exploring epidemiological perspectives, mechanisms of pathogenesis, and management strategies, we delve into understanding how air quality affects diabetes risk and exacerbates complications. Additionally, we examine public health interventions, policy approaches, and clinical considerations to mitigate the burden of diabetes in polluted environments.

**Medical Category's Courses**

## Course Lesson(6)

Lesson 1 : **The Truth About Nonstick Cookware Teflon**

Lesson 2 : **The Most Widely Used Pesticide in the World**

Lesson 3 : **Air Pollution Can Cause Diabetes**

Lesson 4 : **How Diabetes Develops Despite a Low Carb Diet OKAY**

Lesson 5 : **Is Sodium Lauryl Sulfate Safe**

Lesson 6 : **4 Skin Signs That Reveal Heavy Metal Toxicity**

## Related courses

**Infection Control**

**Male Reproductive**

**Anatomy**

**Pharynx**

**Endocrine**

**General Embryology**
