Mindluster Platform

About the course Android From beginner to advanced

There are many challenges which are faced by an Android developer because using Android applications is very easy but developing and designing them is quite tough. There is so much complexity involved in the development of Android applications .

Programming Category's Courses

Course Lesson(82)

Lesson 1 : **Kotlin Project Android WebView**

Lesson 2 : **Kotlin Project Android Functional Todo Application Part 1**

Lesson 3 : **Kotlin Project Android Functional Todo Application Part 2**

Lesson 4 : **Kotlin Project CryptoTracker Part 1**

Lesson 5 : **Kotlin Project CryptoTracker Part 2**

Lesson 6 : **Kotlin Project CryptoTracker Part 3**

Lesson 7 : **Kotlin Project CryptoTracker Part 4**

Lesson 8 : **Dart Flutter Chat App Tutorial**

Lesson 9 : **Building a Multi Page Application with Dart s Flutter Mobile Framework**

Lesson 10 : **Making Http requests and Using Json in Dart s Flutter Framework**

Lesson 11 : **Building Dynamic Lists with Streams in Dart s Flutter Framework**

Lesson 12 : **Using GridView Tabs and Steppers in Dart s Flutter Framework**

Lesson 13 : **Using Global Keys to get State and Validate Input in Dart s Flutter Framework**

Lesson 14 : **The Basics of Animation with Dart s Flutter Framework**

Lesson 15 : **Advanced Physics Based Animations in Dart s Flutter Framework**

Lesson 16 : **Building a Drag and Drop Application with Dart s Flutter Framework**

Lesson 17 : **Building a Temperature Conversion Application using Dart s Flutter Framework**

Lesson 18 : **Using Inherited Widgets and Gesture Detectors in Dart s Flutter Framework**

Lesson 19 :
Using Gradients Fractional Offsets Page Views and Other Widgets in Dart s Flutter Framework

Lesson 20 : **Building a Calculator Layout using Dart s Flutter Framework**

Lesson 21 : **Finishing our Calculator Application with Dart s Flutter Framework**

Lesson 22 :
Making use of Shared Preferences Flex Widgets and Dismissibles with Dart s Flutter framework

Lesson 23 : **Using the Different Style Widgets and Properties in Dart s Flutter Framework**

Lesson 24 : **Composing Animations and Chaining Animations in Dart s Flutter Framework**

Lesson 25 : **Building a Countdown Timer with a Custom Painter and Animations in Dart s Flutter Framework**

Lesson 26 : **Reading and Writing Data and Files with Path Provider using Dart s Flutter Framework**

Lesson 27 : **Exploring Webviews and the Url Launcher Plugin in Dart s Flutter Framework**

Lesson 28 : **Building a Movie Searcher with RxDart and SQLite in Dart s Flutter Framework Part 1**

Lesson 29 : **Building a Movie Searcher with RxDart and SQLite in Dart s Flutter Framework Part 2**

Lesson 30 : **Building a Movie Searcher with RxDart and SQLite in Dart s Flutter Framework Part 3 Final**

Lesson 31 : **Adding a Real time Database to a flutter application with Firebase**

Lesson 32 : **Building a List in Redux with Dart s Flutter Framework**

Lesson 33 : **Managing State with the Scoped Model Pattern in Dart s Flutter Framework**

Lesson 34 : **Building a Mine Sweeper Game using Dart s Flutter Framework Part 1**

Lesson 35 : **Building a Mine Sweeper Game using Dart s Flutter Framework Part 2**

Lesson 36 : **Building a Mine Sweeper Game using Dart s Flutter Framework Part 3**

Lesson 37 : **Building a Mine Sweeper Game using Dart s Flutter Framework Part 4 Final**

Lesson 38 : **Authenticating Guest Users for Firebase using Dart s Flutter Framework**

Lesson 39 : **How to Monetize Your Flutter Applications Using Admob**

Lesson 40 : **Using Geolocator to Communicate with the GPS and Build a Map in Dart s Flutter Framework**

Lesson 41 : **Managing the App Life Cycle and the Screen Orientation in Dart s Flutter Framework**

Lesson 42 : **Managing State with Flutter Flux and Building a Crypto Tracker App**

Lesson 43 : **Making Use of Utility Plugins for Dart s Flutter Framework**

Lesson 44 : **Interfacing with Websockets using Dart s Flutter Framework**

Lesson 45 : **Weather Application with Flutter Part 1 Handling Complex Json with Code Generation**

Lesson 46 : **Weather Application with Flutter Part 2 Creating a Repository and Model**

Lesson 47 : **Weather Application with Flutter Part 3 RxCommands and an Inherited Widget**

Lesson 48 : **Weather Application with Flutter Part 4 Finishing the Application with RxWidget**

Lesson 49 : **Playing Local Network and YouTube Videos with the Video Player Plugin in Dart s Flutter Framework**

Lesson 50 : **How to Localize and Internationalize Applications with Intl in Dart s Flutter Framework**

Lesson 51 : **Building Custom Scroll Physics and Simulations with Dart s Flutter Framework**

Lesson 52 : **Making Dynamic Layouts with Slivers in Dart s Flutter Framework**

Lesson 53 : **Building a Sketch Application by using Custom Painters in Dart s Flutter Framework**

Lesson 54 :

Using Dart Isolates Dependency Injection and Future Builders in Dart s Flutter Framework

Lesson 55 :
Using Scoped Model in a Multi Page or Tabbed Application With Dart s Flutter Framework

Lesson 56 : **Manually Spawning Isolates for Larger Computations in Dart s Flutter Framework**

Lesson 57 : **Looking at the Main Features of the Beta Three Release of Dart s Flutter Framework**

Lesson 58 : **Working with Material Theme and Fonts in Dart s Flutter Framework**

Lesson 59 : **Using Cloud Firestore as a Realtime Datastore for CRUD with Dart s Flutter Framework**

Lesson 60 :
Authenticating Users with Google in Firebase and Firestore inside of Dart s Flutter Framework

Lesson 61 :
Using the Elm Architecture or the MVU pattern with Dartea inside of Dart s Flutter Framework

Lesson 62 :
Using the BloC Pattern to Build Reactive Applications with Streams in Dart s Flutter Framework

Lesson 63 :
Building Immutable Models with Built Value and Built Collection in Dart s Flutter Framework

Lesson 64 : **Building Pure Dart Libraries and Packages for Dart s Flutter Framework**

Lesson 65 : **Using Plugins to Interface with Android or iOS with Dart s Flutter Framework**

Lesson 66 : **Using Firestore Storage and Caching Files inside of Dart s Flutter Framework**

Lesson 67 :
Using Tab and Scroll Controllers and The Nested Scroll View in Dart s Flutter Framework

Lesson 68 : **Build Custom FABs and Bottom App Bars inside of Dart s Flutter Framework**

Lesson 69 : **Persisting UI State and Building Bottom Navigation Bars in Dart s Flutter Framework**

Lesson 70 :
Using the Cupertino Library to Add iOS Themed Widgets to the App in Dart s Flutter Framework

Lesson 71 :
Managing and Merging Streams and Using Types for Matching in Dart s Flutter Framework

Lesson 72 : **Building a Todo Application CRUD In Flutter With Redux Part 1**

Lesson 73 : **Building a Todo Application CRUD In Flutter With Redux Part 2**

Lesson 74 : **Building a Todo Application CRUD In Flutter With Redux Part 3**

Lesson 75 : **Advanced Flutter Project Setting Up the Basics Part One**

Lesson 76 : **Advanced Flutter Project Adding a Second BloC Part Two**

Lesson 77 :
Flutter Best Practices Building a Generic BLoC Provider Advanced Flutter Project Part Three

Lesson 78 : **Advanced Flutter Project Adding Fonts and Fuzzy Timestamps Part Four**

Lesson 79 : **Advanced Flutter Project Filtering Contributions and Building Aesthetics Part Five**

Lesson 80 :
Advanced Flutter Project Third BLoC StreamControllers and Periodic Observables Part Six

Lesson 81 : **Building a Flutter Speech to Text Speech Recognizer Application**

Lesson 82 : **Using Flare to Build Vector Graphics and Animations in Flutter**
