Mindluster Platform

About the course Single Page Web Apps with AngularJS

AngularJS is a JavaScript-based front-end web framework based on bidirectional UI data binding and is used to design Single Page Applications. Single Page Applications are web applications that load a single HTML page and only a part of the page instead of the entire page gets updated with every click of the mouse.

Programming Category's Courses

Course Lesson(5)

Lesson 1 :
Building Single Page Web Apps with AngularJS Tutorial Automated Testing | packtpub com

Lesson 2 :
Building Single Page Web Apps with AngularJS Tutorial Writing Custom Services | packtpub com

Lesson 3 :
Building Single Page Web Apps with AngularJS Tutorial AngularJS Directives | packtpub com

Lesson 4 : **Building a Complex Single Page Application Part 1 | packtpub com**

Lesson 5 : **Building Single Page Web Apps with AngularJS Tutorial Angular seed | packtpub com**
