Mindluster Platform

About the course Firebase From beginner to professional

The Firebase Realtime Database lets you build rich, collaborative applications by allowing secure access to the database directly from client-side code. Data is persisted locally, and even while offline, realtime events continue to fire, giving the end user a responsive experience.

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Learning Firebase The Course Overview | packtpub com**

Lesson 2 : **Learning Firebase Adding and Retrieving Data | packtpub com**

Lesson 3 : **Learning Firebase Choosing and Enabling an auth Provider | packtpub com**
