About the course Cancer Symptoms for Men or Women

Cancer Symptoms course, in this course we will explore the various symptoms associated with cancer. Participants will learn to recognize common signs such as unexplained weight loss, persistent fatigue, changes in bowel or bladder habits, unusual bleeding, and abnormal lumps or growths. Through case studies and discussions, learners will gain insights into the diverse manifestations of cancer symptoms across different body systems. This course aims to enhance awareness and understanding of early warning signs of cancer, facilitating timely diagnosis and intervention for improved patient outcomes.
