About the course Diabetes Signs and Symptoms

Diabetes Signs course, in this course we will explore the signs and symptoms associated with diabetes. Participants will learn to recognize common indicators such as frequent urination, excessive thirst, unexplained weight loss, fatigue, blurred vision, and slow wound healing. We'll discuss the different types of diabetes, risk factors, and complications. Through case studies and discussions, learners will gain insights into identifying early warning signs of diabetes and the importance of timely diagnosis and management.
