Mindluster Platform

About the course Front End Web Development using Go

Go comes with a built-in HTML templating engine, which can be found in the html/template package. The syntax isn't intuitive at first, especially coming from a frontend background, but it's actually quite simple and gets the job done perfectly .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Front End Web Development using Go The Course Overview | packtpub com**

Lesson 2 : **Front End Web Development using Go Rendering a 3D Gopher | packtpub com**
