Mindluster Platform

About the course Basic App Using Xamarin and Xamarin

Unsurprisingly, Xamarin should be used for building mobile apps. The platform provides a means to build mobile apps without utilizing OS-specific languages like Swift or Java. Ultimately, the advantage of this is more efficient and holistic development as codebases can be shared cross-platform .

Programming Category's Courses

Course Lesson(3)

Lesson 1 :
Building a Basic App Using Xamarin and Xamarin Forms The Course Overview | packtpub com

Lesson 2 :
Building a Basic App Using Xamarin and Xamarin Forms Understand Razor Templating Engine|packtpub com

Lesson 3 :
Building a Basic App Using Xamarin and Xamarin Forms Building a Photo Library App | packtpub com
