Mindluster Platform

About the course Getting Started with C 17 Programming

I'd use the C++17 flag by default, it's the default in the latest version of clang too iirc. You should use the latest language features as long as you don't need to support builds on older compilers or embedded platforms that only have outdated compilers, as mentioned above .

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Getting Started with C 17 Programming The Course Overview | packtpub com**

Lesson 2 :
Getting Started with C 17 Programming The Standard Template Library Architecture | packtpub com

Lesson 3 : **Getting Started with C 17 Programming Set | packtpub com**

Lesson 4 : **Getting Started with C 17 Programming Function Templates | packtpub com**

Lesson 5 : **Getting Started with C 17 Programming auto ptr | packtpub com**
