Mindluster Platform

About the course Swift 4 Protocol Oriented Programming

Protocol-Oriented Programming is a new programming paradigm ushered in by Swift 2.0. In the Protocol-Oriented approach, we start designing our system by defining protocols. We rely on new concepts: protocol extensions, protocol inheritance, and protocol compositions. The paradigm also changes how we view semantics .

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **Swift 4 Protocol Oriented Programming The Course Overview | packtpub com**

Lesson 2 : **Swift 4 Protocol Oriented Programming Classes | packtpub com**

Lesson 3 : **Swift 4 Protocol Oriented Programming Defining an Extension | packtpub com**

Lesson 4 :
Swift 4 Protocol Oriented Programming Generic Functions and Type Constraints | packtpub com

Lesson 5 :
Swift 4 Protocol Oriented Programming Swift as Object Oriented Programming Lang|packtpub com

Lesson 6 :
Swift 4 Protocol Oriented Programming Swift as Protocol Oriented Programming Language|packtpub com

Lesson 7 : **Swift 4 Protocol Oriented Programming Creational Patterns | packtpub com**

Lesson 8 : **Swift 4 Protocol Oriented Programming Logging Service | packtpub com**
