About the course Boerhaave Syndrome Emergency Treatment

Boerhaave Syndrome course, in this course we will explore the intricacies of Boerhaave Syndrome, a rare but life-threatening condition characterized by spontaneous rupture of the esophagus. Through in-depth lectures and case studies, participants will gain comprehensive knowledge of its pathophysiology, clinical presentation, diagnostic methods, and treatment approaches, including both surgical and non-surgical interventions. Special emphasis will be placed on early recognition, interdisciplinary collaboration, and optimal management strategies to improve patient outcomes and reduce morbidity and mortality associated with this challenging condition.

Medical Category's Courses

Course Lesson(18)

Lesson 1 : **Case Study 1 Urinary Tract Infection UTI**

Lesson 2 : **Case Study 2 Ischemic Stroke**

Lesson 3 : **Case Study 3 Intracerebral Hemorrhage**

Lesson 4 : **Case Study 4 Subarachnoid Hemorrhage**

Lesson 5 : **Case Study 5 Status Epilepticus**

Lesson 6 : **Case Study 6 Cluster Headache**

Lesson 7 : **Case Study 7 Multiple Sclerosis**

Lesson 8 : **Case Study 8 Pulmonary Embolism**

Lesson 9 : **Case Study 9 Postextubation Stridor**

Lesson 10 : **Case Study 10 Boerhaave Syndrome**

Lesson 11 : **Case Study 11 Acute Mesenteric Ischemia**

Lesson 12 : **Case Study 12 Cardiac Tamponade**

Lesson 13 : **Case Study 13 ARDS**

Lesson 14 : **Case Study 14 Acute Kidney Injury AKI**

Lesson 15 : **Case Study 15 Hyperkalemia**

Lesson 16 : **Case Study 16 Clostridium Difficile C Diff**

Lesson 17 : **Case Study 17 Atrial Fibrillation**

Lesson 18 : **Case Study 18 Myocardial Infarction**
