Mindluster Platform

About the course Go Building DevOps Tools

Go is good and often preferred to build DevOps tools because of its effectiveness and built-in features: The simple statically written code, handy and fast tools, type safety that protects you from code bugs, a feel of the C language that most developers grew with, and the ecosystem .

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Go Building DevOps Tools The Course Overview | packtpub com**
