About the course COVID 19 Coronavirus Diagnostics

COVID-19 Coronavirus course, in this course we will learn about the COVID-19 coronavirus, a novel respiratory virus that has sparked a global pandemic. Topics will include the virology and transmission of the virus, clinical manifestations of COVID-19 infection, diagnostic methods, preventive measures, treatment options, and the societal impact of the pandemic. Through a multidisciplinary approach, students will gain a comprehensive understanding of the virus, its effects on public health, and strategies for mitigating its spread and managing its consequences.

Medical Category's Courses

Course Lesson(9)

Lesson 1 : **COVID 19 Coronavirus Epidemiology Pathophysiology Diagnostics**
