Mindluster Platform

About the course React with Redux and Flux

Flux is AN architecture that Facebook uses internally when operating with React. It is not a framework or a library. It is merely a replacement quite an architecture that enhances React and also the idea of unidirectional data flow. Redux is a predictable state container for JavaScript apps.

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Learning React with Redux and Flux The Course Overview | packtpub com**

Lesson 2 : **Learning React with Redux and Flux Passing Props| packtpub com**

Lesson 3 : **Learning React with Redux and Flux Using a Data Store| packtpub com**

Lesson 4 : **Learning React with Redux and Flux Converting to Redux| packtpub com**

Lesson 5 :
Learning React with Redux and Flux Single Page Applications with React Router| packtpub com
