About the course Pancreas Circulation Model

Pancreas Circulation course, in this course we will learn about the intricate network of blood vessels that supply the pancreas with oxygen and nutrients, as well as remove waste products. Topics include the arterial and venous blood supply to the pancreas, microcirculation within the pancreatic tissue, and the role of the pancreas in regulating blood glucose levels. Through detailed study of the pancreas circulation, students will gain insights into the physiology of pancreatic function and its relevance to various metabolic disorders such as diabetes mellitus.

Medical Category's Courses

Course Lesson(19)

Lesson 1 : **Cardiovascular Anatomy of the Heart Heart Model**

Lesson 2 : **Circulatory System Pulmonary Circulation**

Lesson 3 : **Circulatory System Coronary Circulation**

Lesson 4 : **Circulatory System Arteries Veins of the Head Neck Head Model**

Lesson 5 : **Circulatory System Arteries of the Head Neck Flow Chart**

Lesson 6 : **Circulatory System Veins of the Head Neck Flow Chart**

Lesson 7 : **Circulatory System Circle of Willis Circulation**

Lesson 8 : **Circulatory System Circle of Willis Ischemic Strokes**

Lesson 9 : **Circulatory System Arteries Veins of the Upper Lower Limbs Wire Man Model**

Lesson 10 : **Circulatory System Arteries Veins of the Upper Limb Vascular Arm Model**

Lesson 11 : **Circulatory System Arteries of the Upper Limb Flow Chart**

Lesson 12 : **Circulatory System Arteries of the Thorax Abdomen Torso Anatomy Model**

Lesson 13 : **Circulatory System Arteries of the Thorax Abdomen Flow Chart**

Lesson 14 : **Circulatory System Liver Circulation Model**

Lesson 15 : **Circulatory System Pancreas Circulation Model**

Lesson 16 : **Circulatory System Arteries of the Lower Limb Flow Chart**

Lesson 17 : **Circulatory System Veins of the Thorax Abdomen Torso Anatomy Model**

Lesson 18 : **Circulatory System Veins of the Thorax Abdomen Lower Limbs Flow Chart**

Lesson 19 : **Circulatory System Arteries Veins of the Fetus Fetal Circulation Model**
