Mindluster Platform

About the course Deep Learning Architectures and Applications

Deep learning is represented by a spectrum of architectures that can build solutions for a range of problem areas. These solutions can be feed-forward focused or recurrent networks that permit consideration of previous inputs .

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Deep Learning Architectures and Applications The Course Overview |packtpub com**

Lesson 2 :
Deep Learning Architectures and Applications SimpleRNN Cells and RNN Topologies|packtpub com

Lesson 3 : **Deep Learning Architectures and Applications WaveNet|packtpub com**
