# About the course Reactive Swift 4 Programming

Reactive programming basically means relying on entities emitting elements, subscribing to its changes and reacting to those changes. So, reactive programming saves you from having to re-check states and manually putting conditions in your code .

**Programming Category's Courses**

## Course Lesson(5)

Lesson 1 : **Reactive Swift 4 Programming The Course Overview|packtpub com**

Lesson 2 : **Reactive Swift 4 Programming Introducing RxSwift|packtpub com**

Lesson 3 : **Reactive Swift 4 Programming Sequences and Observables|packtpub com**
