Mindluster Platform

About the course Automation with Jenkins

Jenkins is a popular CI orchestration tool. It provides numerous plugins for integration with multiple test automation tools and frameworks into the test pipeline. When it comes to test automation, Jenkins provides plugins that help run test suites, gather and dashboard results, and provide details on failures .

Programming Category's Courses

Course Lesson(6)

Lesson 1 :
Hands On Continuous Integration and Automation with Jenkins The Course Overview | packtpub com

Lesson 2 :
Hands On Continuous Integration and Automation with Jenkins Tour Jenkins Dashboard | packtpub com

Lesson 3 :
Hands On Continuous Integration and Automation with Jenkins What Is CI CD | packtpub com

Lesson 4 :
Hands On Continuous Integration and Automation with Jenkins What Pipeline as Code | packtpub com

Lesson 5 :
Hands On Continuous Integration and Automation with Jenkins What Is Blue Ocean | packtpub com

Lesson 6 : **Hands On Continuous Integration and Automation with Jenkins Overview | packtpub com**
