Mindluster Platform

About the course Spark Analytics Data Processing

Spark is a general-purpose distributed data processing engine that is suitable for use in a wide range of circumstances. On top of the Spark core data processing engine, there are libraries for SQL, machine learning, graph computation, and stream processing, which can be used together in an application .

Programming Category's Courses

Course Lesson(3)

Lesson 1 : **Spark Analytics for Real Time Data Processing The Course Overview |packtpub com**

Lesson 2 :
Spark Analytics for Real Time Data Processing Spark Streaming â€“ Introduction|packtpub com

Lesson 3 :
Spark Analytics for Real Time Data Processing Best Practices for High Velocity Streams|packtpub com
