Mindluster Platform

About the course Convolutional Neural Networks Programming

A convolutional neural network (CNN) is a type of artificial neural network used in image recognition and processing that is specifically designed to process pixel data.

Programming Category's Courses

Course Lesson(7)

Lesson 1 : **Practical Convolutional Neural Networks The Course Overview | packtpub com**

Lesson 2 : **Practical Convolutional Neural Networks Convolutional Neural Networks | packtpub com**

Lesson 3 :
Practical Convolutional Neural Networks Convolution Pooling Operations in TensorFlow | packtpub com

Lesson 4 : **Practical Convolutional Neural Networks Feature Extraction Approach | packtpub com**

Lesson 5 : **Practical Convolutional Neural Networks Introduction to Autoencoders | packtpub com**

Lesson 6 :
Practical Convolutional Neural Networks Differences Object Detection Img Classi | packtpub com

Lesson 7 :
Practical Convolutional Neural Networks Attention Mechanism for Image Captioning | packtpub com
